

We invite you  
to participate in a

# Carolina Thread Trail Public Meeting

York County communities have been selected to pilot a master greenway planning process, the beginning of a 15-county regional network for walking, biking, commuting and simply enjoying. It will create a permanent legacy of conservation for more than two million people by linking communities and attractions across North and South Carolina.

The Thread will be a catalyst for economic development and healthier communities. Come to discuss the Carolina Thread Trail in more detail and provide your thoughts and input.

Invite **EVERYONE** you know!

Monday, March 31, 2008

The Spratt Building
