with Enviroscape  
demos*

Not sure what an  
"Enviroscape" Demo  
is? Check it out!

# New Volunteer Portal Launches

Stormwater Volunteers will have a new way to get involved in 2023 with our new volunteer portal. Prospective volunteers will sign up through the Town's Better Impact portal and once their application is approved, be able to sign up for a variety of volunteer opportunities.

## Student Art Contest Moves to Judging

The Stormwater Art Contest has closed and is now moving towards judging. We received nearly 50 entries for the first annual contest. Judging will be completed January 19th with winners announced by the end of January. Olive's Mud Puddle will host a reception for the students in early February. If you are around Town Hall on January 19th, feel free to pop in the conference room to take a look at the artwork!

## Stormwater Art Project is Awarded Grant

The Stormwater Art Project received a grant from the York County Arts Council to help support the mural installation this spring. We are excited by the support this project has in our community--more funding news coming soon!
